Complaints are being made in this  
city of the practice of agents or others  
stuffed advertising circulars into let-

house shall ring the door bell. The  
circulars fill up the opening in the  
boxes and cause much annoyance to  
Uncle Sam's letter carriers.

fish conservation as 150,000 brook trout

Noank, he said, was ahead of the one

pages to the hotel men's gathering

## OUTSIDE THE POOR WORK GIVE UP

United Workers will Not Carry It On Any Longer Be-  
cause of Financial Condition—Other Departments  
will Continue.

The outside poor work of the United  
Workers, which has been carried on  
through the City Mission for a number  
of years, has been given up by that  
organization, the decision being reach-  
ed after all sides of the question were  
considered. It was considered that  
proper thing to do because of the  
financial condition of the organization,  
which for the past few years has been  
obliged to use some of its invested  
funds to carry on the work. This result  
has been expected some time, and the  
finances have been looked over, and  
those who have been assisted will be  
referred to the town, thus putting the  
charity work under one head, as the  
several meetings concerning the chari-  
ties of the city believed to be the  
proper plan.

A member of the advisory board of  
the United Workers, and a member of  
evening that this giving up of the out-  
side poor work would not in any way  
affect other departments of the or-  
ganization, such as the Sheltering  
Arms, Rock Nook Home, em-  
ployment bureau, sewing school, dis-  
tributing nurse society and the day  
work.

These departments are all doing  
a big work, and the organization's  
funds for carrying them on, while not  
all they might want, are larger than  
the outside poor work.

As regards this decision, the report  
of the secretary of the mission, Miss  
A. S. Cogswell, in the annual state-  
ment portended this outcome when it  
said: "It rests with the public to de-  
cide whether we shall be enabled to  
continue to lend a helping hand over  
hard places to those who need it, or to  
give a small measure of regular help to  
the old and infirm, which two lines of  
effort seem to be the special function  
of this branch of the United Work-  
ers."

The thirty-third annual report of the  
United Workers has been issued, and  
shows the large amount of work which  
has been done during the year 1909,  
and the financial condition of the or-  
ganization. The report shows that the  
mission has been able to carry on its  
work, and that the public has been
